

Installing the data and getting started

NOTE: You must have Arcview3.3 installed on your computer. If you do not own Arcview3.3, you can obtain a 180-day license by purchasing any of several educational products including Exploring the Ocean Environment: GIS Investigations for the Earth Sciences by Hall, Walker, Weeks, and Kendall (Brooks Cole Publisher; ISBN-13: 978-0534423506).

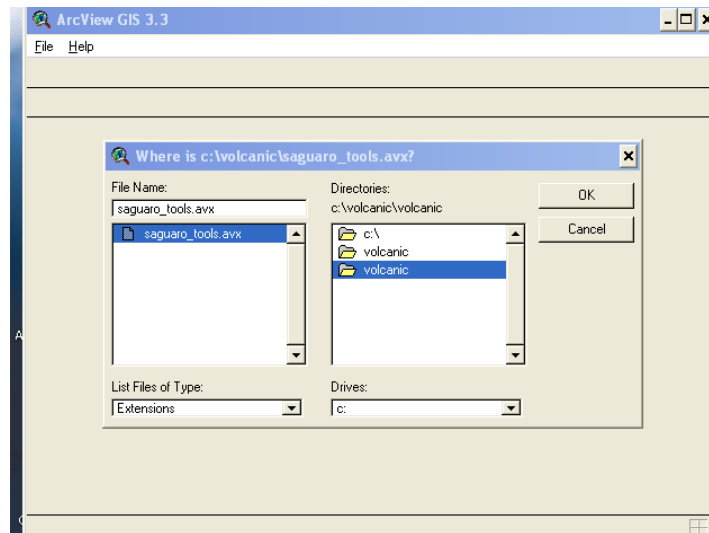

1. Download and unzip the data folder at <http://www.mtsu.edu/~mabolins/volcanic.zip>.
2. Launch Arcview3.3.
3. Click on the **Open an existing project** radio button and then click **OK**.

4. Navigate to the "volcanic" folder, set the **File Name** to "volcano.apr," and click **OK**.

5. Set the **File Name** to “saguaro_tools.avx” and click **OK**.

6. You are now ready to begin the activity tutorial at <http://www.mtsu.edu/~mabolins/globalvolcanoes.pdf>.
