Inputs
This is what you are investing... funding, partnerships, staff time, facilities

Program elements
This is what you do to fulfill your projects mission
- Develop promotional materials
- Advertising flyers
- Webpage
- Promote REU site online and from Booths at SACNAS, GSA and NABGG

Outputs
This is what is produced
- Advertising flyers
- Webpage

Outcomes (Near term)
These are the benefits or changes that will occur as a result of your actions
- Increasing the % from underrepresented groups in STEM that apply to the program

Measures
A description of how you will monitor for success
- Annual applicant pool tracking (e.g. Gender, Minority status, Institution type, etc)

Outcomes (Long term)
The long term impact of the program
- Increasing the number of students from underrepresented groups in STEM that earn and advanced degree in oceanography

Measures
A description of how you will monitor for success
- Longitudinal tracking of program alumni

Research questions (near term)
E.g. What is required to increase the diversity of an established REU program's applicant pool?

Research questions (longer term)

NSF REU Award
0.5 Internal FTE

Add more as necessary
