

Information Literacy Activity

Art and Text

John Gruber-Miller

The Stele of Mnesarete

- What in this work of art are you curious about?
- To make meaning of the stele, what information do you need to know?
- Where are you going to begin looking for information?

Reflection

- What did it feel like to be a first-year student presented with an unfamiliar text?
- What possible interventions do you feel would make this a more approachable assignment for students?
- How might an assignment like this be embedded in a course to make it a worthwhile cultural literacy activity? How might this assignment be different in a first year Greek course vs. an upper-level course on Women in Antiquity?
