

**TESC 345 Environmental Justice Group Project Evaluation  
Spring 2009**

Other Members: \_\_\_\_\_  
                                  \_\_\_\_\_                                    \_\_\_\_\_  
                                  \_\_\_\_\_                                    \_\_\_\_\_

(1) Did the group project enhance your knowledge of environmental justice issues, and if so how?

(2) How did you specifically contribute to the group project (e.g. research, writing, editing, organization, poster layout, etc.)? Also, please estimate the time spent doing each task.

(3) Of the total work that was required for the group project, please estimate the percentage out of 100% total that you and the other members of your group contributed (e.g. Jane 30%, John 30%, Jose 40%). Do you feel that this was an equitable distribution of work? If not why?

(4) How might this group project be improved in the future?
