Activity 1:
Ecology of climate change in the global carbon budget
(Learning objectives 1, 2, & 3)
Activity 2:
Trees as a source and sink of carbon
(Learning objectives 1 & 2)
Activity 3:
Impact of disturbances and stressors on carbon uptake in trees
(Learning objective 3)
Activity 4:
Impact of trees on seasonal cycle of atmospheric CO2
(Learning objectives 1 & 3)
Activity 5:
Measuring biomass in campus trees
(Learning objective 4)
Activity 6:
Role of land C uptake in climate change mitigation
(Learning objectives 2, 4, 5, & 7)
Activity 7:
Land management plans for climate change mitigation
(Learning objectives 1 – 8)
