

Dear Management,

I noticed that some of the seafood you sell comes from sources that are harmful to our oceans. As a customer, it is important to me that you offer environmentally responsible seafood. This decision is good for oceans and for business as it meets the growing demand for ocean friendly seafood.

Dear Management,

Thank you for offering environmentally responsible seafood. When purchasing seafood, I also try to make ocean friendly choices. I look forward to recommending your business to my friends and family.
