

Content Schedule *(Includes Online Lecture Content Table AND F2F+Online Labs Table)*

Spring 2010 NWACC GEOL 1114 General Geology Online/Hybrids (Williams)

(Ver: 26 Jan 2010)

*It is VERY important that you note when various items are available (and online they may become available earlier but deadlines remain the same...so do watch online). It is your responsibility to check the course Blackboard tools and links to see when items (chapter content learning modules, discussion threads, assignments, lab modules, quizzes, and exams) become available **AND what date/time they are due before the Exam related to that content.***

I expect you to check/remind yourself weekly so that you do not miss deadlines. I require you to participate online each week AND to attend the lab-related “face to face” sessions scheduled for our Tuesday session.

Please note, the Blackboard Calendar tool is available for your personal use; I will not necessarily post all items that appear in the various tools we use (e.g. Assessment or Assignment tools) in the Calendar. Their due dates correspond with the “Work Due” dates and generally 9 PM in the evening deadlines on those dates. It is your responsibility to make notes into the Calendar tool if you like to use that feature. You can get dates from this document, where that information appears next to the individual task links, or any necessary updates I communicate to you online during the semester.

Our NWACC GEOL 1114 Study and Work Flow Chart for Course-Related Components

Note: Online content components are available 19 January – 14 May 2010.

Spring Break is 22 – 28 March
