

Geol 1100 List of minerals and rocks for lab quiz 2 and lab final exam

This list is to help you study for the lab quiz

Mineral	Igneous	Sedimentary	Metamorphic
Quartz	Granite	Conglomerate	Gneiss
Plagioclase feldspar	Rhyolite	Sandstone	Schist
K-feldspar	Diorite	Siltstone	Phyllite
Biotite	Andesite	Claystone	Slate
Muscovite	Gabbro	Shale	Quartzite
Pyroxene	Basalt	Coal	Marble
Amphibole	Obsidian	Coquina	Metaconglomerate
Talc	Pumice	Fossiliferous limestone	
Calcite	Scoria	Chalk	
Halite	Tuff	Micrite	
Olivine	Peridotite	Rock salt	
Pyrite		Chert	
Galena			
Magnetite			
Hematite			
Sphalerite			
Fluorite			

Geol 1100 List of minerals and rocks for lab quiz 2 and lab final exam

This list is what you will be given during the lab quiz
(rocks and minerals are combined in simply alphabetical order)

Amphibole	Micrite
Andesite	Muscovite
Basalt	Obsidian
Biotite	Olivine
Calcite	Peridotite
Chalk	Phyllite
Chert	Plagioclase feldspar
Claystone	Pumice
Coal	Pyrite
Conglomerate	Pyroxene
Coquina	Quartz
Diorite	Quartzite
Fluorite	Rhyolite
Fossiliferous limestone	Rock salt
Gabbro	Sandstone
Galena	Schist
Gneiss	Scoria
Granite	Shale
Halite	Siltstone
Hematite	Slate
K-feldspar	Sphalerite
Magnetite	Talc
Marble	Tuff
Metaconglomerate
