Feature APECS News Jobs Polar Regions

APECS featured in Spanish National Geographic

In the May 2009 Issue of Spanish National Geographic you will find a great section about the IPY projects that Spain is involved with... and there are a lot! Since this issue was published we have had hundreds of new hits on the website from Spanish speaking countries, and many new members.

Special thanks to IPY Joint Committee member Jeronimo Lopez-Martinez for

ABOUT APECS

APECS is an international and interdisciplinary organization for undergraduate and graduate students, postdoctoral researchers, early faculty members, educators and others with interests in Polar Regions and the wider cryosphere. Our aims are to stimulate interdisciplinary and inter-institutional research collaboration and to develop effective future leaders in polar research, education and outreach. We work to achieve these goals by:

- > Facilitating international and interdisciplinary networking;
- > Providing opportunities for professional career development and
- > Promoting education and outreach.

Web 2.0 community website supported by the Arctic Portal

The image shows a screenshot of the APECS (Association of Polar Early Career Scientists) website. The browser address bar displays <http://www.apecs.is/>. The website header includes the APECS logo and the tagline "Shaping the Future of Polar Research". A navigation menu lists: HOME, ABOUT, MEMBERS, NEWS, CAREER OPPORTUNITIES, MEETINGS & EVENTS, and EDUCATION & OUTREACH. A sidebar on the left contains links for "About APECS", "Leadership", "Promotional Materials", "Partners and Sponsors", "Contact Us", and "Member Tasks" (with a "Log in" link). The main content area features a "NEWS" section with a "Feature" article about the May 2009 issue of Spanish National Geographic, mentioning IPY projects and a "Read more" link. To the right, an "ABOUT APECS" section describes the organization's goals and lists activities like "Facilitating international and interdisciplinary networking", "Providing opportunities for professional career development", and "Promoting education and outreach". Below the news section are "APECS PUBLICATIONS" (listing "Association of Polar Early Career Scientists - EGU 2008") and "APECS EVENTS" (listing "15.06.2009 - 03.07.2009 International Polar Field Scho..."). A "FEATURED MEMBER" section highlights "Cameron McNaughton" from "APECS Atmospheric".

Overlaid on the website are several elements:

- A large blue diagonal banner with the "facebook" logo.
- An orange diagonal banner with the text <http://www.apecs.is>.
- Four blue rectangular boxes on the right side containing the text: "Newsletter", "Podcasts", "Resources", and "FEATURED MEMBER".
- A small map in the bottom left corner showing a world map with red location markers and a text box containing a "Fwd: Vacancies: Sea-ice researcher and Scientific programmer" notice.

Training the New Generation of Polar Researchers

Sheldon Drobot, Stockholm University
C. Susan Weiler, Whitman College
Jenny Beeseaman, APECS

The IPY New Generation of Polar Researchers (NGPR) Symposium brought together 35 early career polar researchers who were competitively selected based on their academic accomplishments, plus their outreach and research plans for the 2007-2009 IPY. Scholars represented the biological, physical and social sciences. This diverse and ambitious group spent an intensive week learning from each other and 12 mentors about the IPY history and future, communication, outreach, and interdisciplinary, international professional development. See <http://arcticportal.org/apecs/ngpr> for full agenda and scholar information, [PowerPoints](#), and videos from the symposium.

Keywords: career development, IPY, international, interdisciplinary

[Ivan Sverdlov, St. Petersburg Russia:](#)
This sounds like a really great project Sheldon, is there any way we can create another opportunity like this for young researchers from Russia to participate?

[P. Borgeas, Kautokeino, Norway:](#)
I am a teacher from a small town in northern Norway and I would really like to meet these researchers from your project. How can I contact them?
