

Dealing with Rejections and Revisions

Strategic Planning Worksheet

Project Needing Revision: _____

If you have a specific project in mind, you can follow this. Otherwise you can plan out a future project using the questions on the board.

Why was your proposal/paper rejected? What were the stated reasons?

When submitted, what did you feel were 2-3 strengths AND weaknesses of the project? Did the panel/reviewers agree with you?

What resources do you need to be successful? Are they available?

Should this project be resubmitted? If yes, to the same journal/RFP? If somewhere else, is there a better fit?

What short-term (days-weeks) and longer term (months+) strategies will you apply to revise your project?

If funded, what is the timeline for this research?
