

Interdisciplinary and Team-Taught Courses – Notes and Ideas

1. What does “interdisciplinary” mean to you in terms of your background and research?
2. How do you plan to be (or how have you already been) “interdisciplinary” in your teaching?
3. What do you want students to gain from the interdisciplinary experience?
4. What are some advantages of interdisciplinary teaching?
5. What are some of the challenges of interdisciplinary teaching?
6. Develop your own interdisciplinary course/module...
