Testimonials

The connections to the Ojibwe was sensitive, thoughtful, informative and meaningful. Thank you.

Miigwech for all your work. With gatherings like this we can learn more about how climate change affects everyone, and everything. Without these gatherings we wouldn't be able to come together, connect and work with people with different backgrounds to come up with solutions...

*The institute was very well done. Quite honestly, probably the best two days of professional development I have participated in.
KUDOS!!!*

This work can be hard and isolating. I highly valued meeting others that are also doing the hard work. I felt I made allies in this fight and now know I am not alone.

Thank you!
