TEACHING TIPS: ANNOTATION DESCRIBING HOW SITE COULD BE USED OR ADAPTED FOR CLASSROOM

There are no directions as to how best use this site for educational purposes. Ideally, it would be great to have a set of questions that would lead students to draw their own conclusions about the issues of global warming, the

greenhouse effect, and ozone using data currently linked to the site. Also, it would help to have brief directions for navigating the site. These could be as a pdf file linked to the site for educational use.

RECOMMENDATION: ANNOTATION DESCRIBING HOW THE DEVELOPER COULD IMPROVE THE SITE.
See comment above.
