

Getting VNC Viewer and Connecting to virtual20.cs.stolaf.edu

This is the number for account v20-51. Use the number corresponding to your given account here

1 Use Google Chrome browser. Search for "Chrome VNC viewer app". Pick the top link from chrome.google.com

2 You should see this, except you will install if you had not done it before.

3 You will enter this, but with a different number after the colon. It's the number after the dash in your account name.

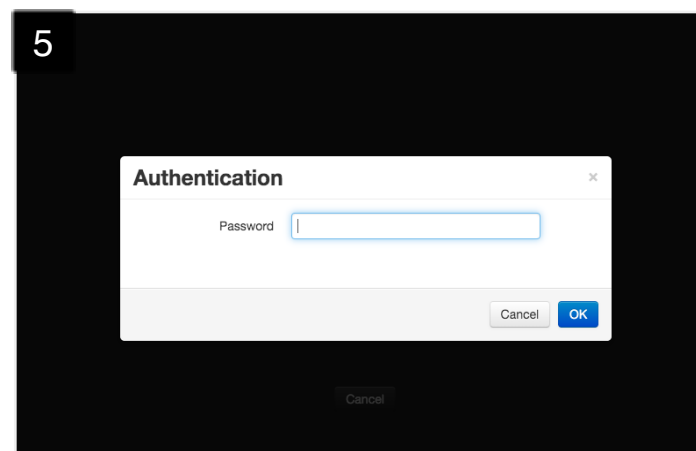

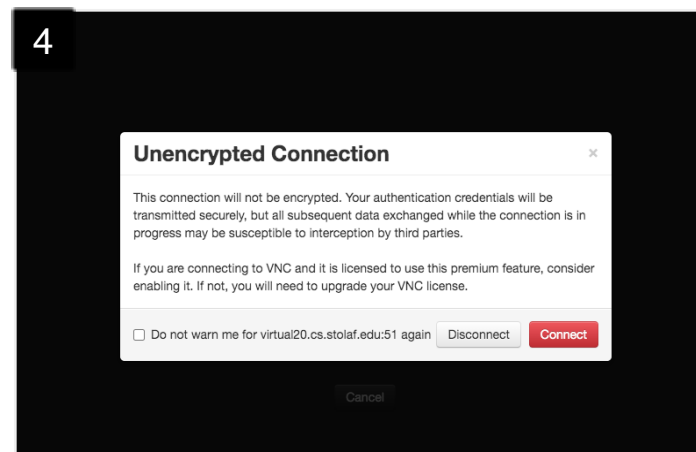

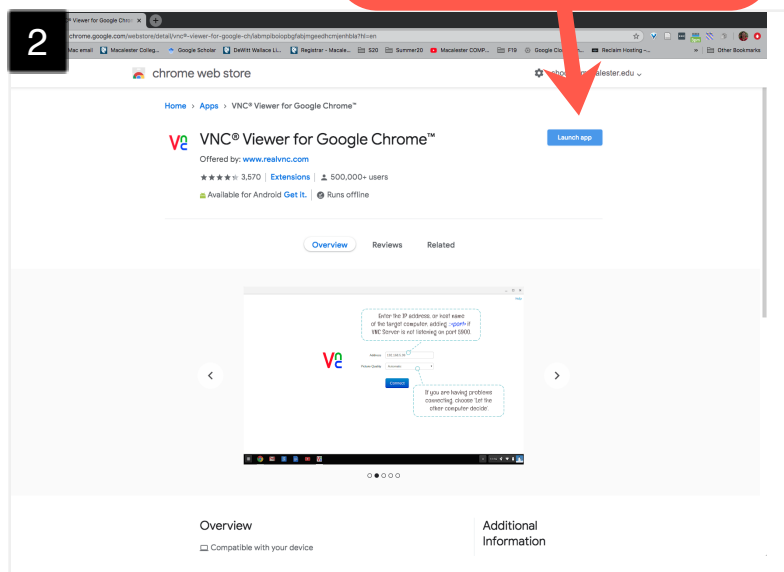

virtual20.cs.stolaf.edu: _

Replace _ with your number

4 Unless we pay extra, VNC is by default unencrypted. Choose to connect.

5 This will be the password you were given for your account on virtual20.cs.stolaf.edu

You will install first, then launch
