

INCLUDES Pathway Pilot 1649367

**Evaluators:** Ellen Iverson, Carleton College (Internal Evaluator); Karen Peterman, Karen Peterman Consulting, Co. (External Evaluator)

## Logic Model

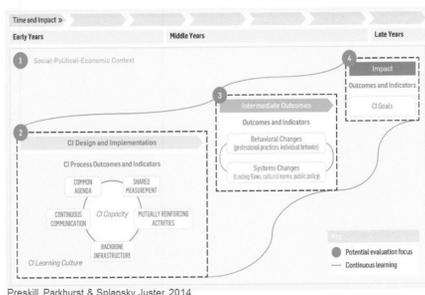

The two objectives of the strategic plan are illustrated in the logic model by two views onto a single set of activities that produce both an initial set of pathway plans and initial implementation efforts, and a scalable system supporting the development of additional pathways by a collective action alliance. Items in italics can only be addressed beyond the two-year scope of the current project.

## Evaluation Approach → Data Collection Strategies

### Framework for Evaluating CI

In what contexts does EarthConnections operate?  
 How do these contexts affect the implementation and success of the project?  
 How are the five CI pillars implemented within EarthConnections?

### Context: Prerequisites for Success (Regional Alliances)

- Urgency**
  - A critical problem in the community
  - Frustration with the existing approaches
  - Multiple actors calling for change
  - Engaged funders and policy makers
- Local Champion**
  - Commands respect and engages cross-sector leaders
  - Focused on solving problems but allows participants to figure out answers for themselves
- History of Trust**
  - Existing partnerships and collaboratives in the community
  - Growing level of trust amongst key stakeholders
- Resources for collaboration**
  - Committed funding partners, including local funders
  - Sustained funding for at least 2-3 years
  - Resources dedicated to collaborative infrastructure (i.e., backbone, data)

Collective Impact Forum, Webinar 1 Handouts

### Process: Indicators as CI Metrics (EarthConnections, Regional Alliances)

### Developmental Evaluation

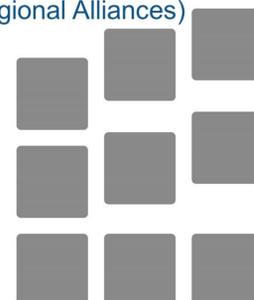

What is happening?  
 What still needs to happen?  
 What do we need to know to take the next step?

### Checkpoint Reports (Regional Alliances)

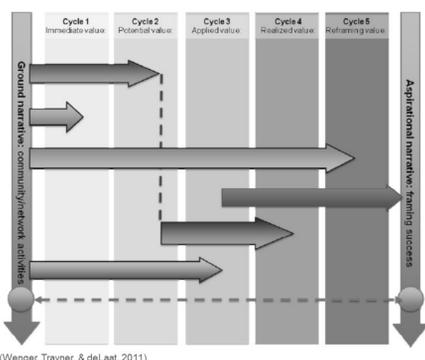

### Dashboard of Building Blocks (EarthConnections, Regional Alliances)

### Value Creation Stories

What are valuable EarthConnections project activities?  
 How do project activities support the shared vision of EarthConnections?

### Value Creation Questions (Regional Alliances)

1. What meaningful activities did you participate in?
2. What specific insights did you gain? What access to useful information or material?
3. How did this influence your practice? What did it enable you to do that would not have happened otherwise?
4. How did this contribute to the goals of your organization? Quantitatively? Qualitatively?
5. How did this contribute to the goals of the CI initiative? Quantitatively? Qualitatively?
6. Has this changed your or some stakeholders' opinion of what matters?
