

Drawing Local Connections

PART A: Annotate a Photograph of Your Study Site

1: Which features of your study site are permanent (always there) and which are transient (temporary)?

PART B: Draw a Simplified Diagram for Your Study Site

1: What do you think are the characteristics of an effective study site diagram? Explain.

2: Draw a diagram of some other system (e.g., a sports team, a group of friends, a car engine, etc.). On your diagram, label the main parts or components of the system and ways those components interconnect.
