

## **Station 2: Wine Bottle and a Balloon**

### **Materials**

- Empty wine bottle
- Wine pump
- Small balloon

### **Procedure**

1. Put a tiny amount of air into a small balloon, and insert the balloon into the bottle. (This step won't have to be repeated after the first group.)
2. Insert the special pump stopper into the mouth of the bottle, place the wine pump on the bottle, and begin pumping.
3. Complete questions on activity sheet.
4. Release vacuum so that the bottle ready for the next group.
