

Macrosystems EDDIE Workshop Agenda  
3 December 2018  
Osprey Room, Rottnest Lodge

8:30am-9am: Introductions, Overview of Macrosystems EDDIE and Project EDDIE

- Pedagogical framework of EDDIE
- Student gains and experiences completing the modules

9am-10:15am: Complete a shortened version of a Macrosystems EDDIE module

- Cross-Scale Interactions: use the GLM-AED model to predict how climate change and land use change affect your favorite GLEON lakes!

10:15am-10:45am: Coffee break

10:45am-11:15am: Wrap-up of CSI module and discussion

- Discussion of what excites and concerns you about teaching a module

11am-12pm: How to teach an EDDIE module: lessons learned and tricks of the trade

- Potential pitfalls and solutions for teaching modules
- Discussion and feedback on modules
- Next steps for Macrosystems EDDIE
