
Field Observations

Next conduct field observations with your cell phone outside for 5 days. Be sure to review the procedures on how to conduct observations outside. Review the following link on your cellphone on how to take photos and describe your immediate surroundings:

<https://observer.globe.gov/documents/19589576/d9980b41-b059-45ff-b29f-2360b4981cfa>

Conduct at least two observations a day. Make sure you write down your SITE ID and the date in the table below each time you take an observation. Refer to figure 1 on how to access that information from the GLOBE Observer app. *Be sure to review the instructional video on how to access this information.*

| Date and SITE ID information | | |
|------------------------------|---------|--------------|
| Date | SITE ID | STUDENT NAME |
