PROGRAM PROJECT GOAL PHASE 2: TEST FOR EVOLUTION OF THE TRIPARTITE SYNAPSE

	Team 1	Team 2	Team 3	Team 4	Team 5
Based on your work in Phase 1, ID candidate specific gene product(s)					
Define specific prediction relating to evolution					
Give a rationale					
Explicitly state what comparisons you will make—consider phylogenetic trees, evolution of the nervous system, and neuron/glia properties					
Use Metazome to make specific comparisons					
Caveats & pitfalls—limitations in our analyses, and knowledge					
Propose a next step that could address these limitations.
