

Materials Development Reflection Survey Items

The survey was administered online prior to classroom pilot.

Do the teaching materials that you developed as part of InTeGrate differ from teaching materials you have developed previously? And if so, how?

Briefly, in what ways did using the materials rubric influence your decisions during the materials development process?

What challenges did you face during the materials development process?

What suggestions do you have for future InTeGrate participants on how to overcome some of the challenges you have faced?

How did your development team interact with the assessment consultant?

What was the best aspect and the worst aspect of developing instructional materials collaboratively with colleagues from multiple institutions?

What aspect(s) of InTeGrate are you most excited or enthusiastic about at this moment?

Final Materials Development Reflection Survey Items

The survey was administered online following classroom pilot and revisions.

Thinking back over the entire process (development, rubric review, teaching, revisions), what parts of the InTeGrate process worked well for you?

Thinking back over the entire process (development, rubric review, teaching, revisions), what parts of the InTeGrate process did you find challenging?

What suggestions do you have for the InTeGrate leadership about how to improve any aspect of the InTeGrate experience?
