

Unit 1: Introduction to Mass Extinctions Homework

What do *you* think about these issues? Rate the following statements (circle strongly disagree, agree, disagree, or strongly disagree at the right of each statement) and for each question, explain the reasoning for the rating you have assigned in a few (at least 2) sentences.

1) Fossils give us an accurate record of Earth's history.

Strongly Agree Agree Disagree Strongly Disagree

2) A mass extinction comparable to those seen in the fossil record is taking place right now.

Strongly Agree Agree Disagree Strongly Disagree

3) Biodiversity is increasing over Earth's history, especially during the last 100 million years.

Strongly Agree Agree Disagree Strongly Disagree
