

# Carleton Summer Science Fellowship

---

*Are you interested in a summer research position?*

The goal of the Summer Science Fellowship is to broaden participation of historically underrepresented groups (including gender, ethnicity, socioeconomic background, and disabilities) in the sciences/math. Carleton Summer Science Fellows will have the opportunity to work in a research lab either at Carleton or at another institution for two summers with a summer stipend of \$4200. Summer Science Fellows will be expected to enroll in the 1 credit Science Fellows Research Colloquium both in the spring before and the fall following their research experience.

## **Eligibility:**

- ❖ First or second year student
- ❖ Must have completed at least one introductory science course with lab by the end of the first year. Students interested in CS/math/stats must have completed at least one course in those fields
- ❖ Interest in obtaining a PhD in a science/math field or exploring science/math as a potential career.

## **Questions?**

Come to an informational meeting with current Science Fellows

Monday, November 5 at 7 PM  
in Olin 02

Or contact  
Melissa Eblen-Zayas, Olin 325  
meblenza@carleton.edu
