

Practice with Remaining baMELs

# Goals of This Session

- Become familiar with the last two baMEL topics
  - Extreme Weather (ExWx)
  - Origin and Evolution of the Universe (Origins)
- Practice facilitating a baMEL

# Within Your Groups

- Select someone to be the teacher, others act as students
- Select ExWx or Origins
- Practice major chunks/questioning, etc. for 10-15 minutes (we'll call time)
  - Draw in questions constructed earlier (Teacher Guide Activity)
  - Note any new questions that emerge as you are practicing
- When time is called, rotate, being sure that everyone gets a teacher opportunity and both baMELs are covered by 1:50pm

# Within Your Groups

- Select someone to be the teacher, others act as students
- Look at Origins
- Practice major chunks/questioning, etc. for 10-15 minutes (we'll call time)
  - Draw in questions constructed earlier (Teacher Guide Activity)
  - Note any new questions that emerge as you are practicing
- When time is called, rotate, being sure that everyone gets a teacher opportunity

*Someone from the group will get to lead us on Extreme Weather!*

# Discussion

- What did you notice about leading the baMELs?
- What problems did you have?
- What opportunities did you find?
- What questions remain?
