Foreland basin and fold-thrust belt petroleum systems
May 24-June 9, 2018 (Application deadline Jan. 31, 2018)

Where: Rocky Mountain West classroom, based in Salt Lake City
For whom: Graduate students seeking industry training, advanced undergraduates, early career professionals
Instructors: Lauren Birgenheier, John Byrd, Cari Johnson, Mike McGroder, Lori Summa

Course highlights:
✓ Mixed classroom and field-based class in the Wyoming overthrust belt and Green River foreland basin
✓ Emphasis on clastic sequence stratigraphy, compressional structural geology and petroleum systems concepts
✓ Collaboratively taught by established industry professionals and University of Utah faculty, leveraging existing Petroleum Industry Career Path (PICP) curriculum program that has a proven track record of student-to-industry training success (3-credit course with transferable credits)
