## *LED Card Design Matrix -Checklist for Students*

For each of your designs check the box if the statement is true. Total the number of boxes checked for each design to see which scores the highest. Utilize the highest scoring design for your final card design and construction of your LED Card. If they result in a tie pick your favorite. :)

### *Design 1 Checklist*

- My design clearly shows what type of card I intended to make: Thank You, Birthday Encouragement, Thinking of You, Apology
- I included the light of my card in a creative way.
- My design can work both horizontally or vertically when I insert the light.
- I like what I created in this design.

### *Design 2 Checklist*

- My design clearly shows what type of card I intended to make: Thank You, Birthday Encouragement, Thinking of You, Apology
- I included the light of my card in a creative way.
- My design can work both horizontally or vertically when I insert the light.
- I like what I created in this design.

### *Design 3 Checklist*

- My design clearly shows what type of card I intended to make: Thank You, Birthday Encouragement, Thinking of You, Apology
- I included the light of my card in a creative way.
- My design can work both horizontally or vertically when I insert the light.
- I like what I created in this design.

### *Design 4 Checklist*

- My design clearly shows what type of card I intended to make: Thank You, Birthday Encouragement, Thinking of You, Apology
- I included the light of my card in a creative way.
- My design can work both horizontally or vertically when I insert the light.
- I like what I created in this design.
