

2 Layer Atmosphere Model (Earth Energy Model 4)

Here the model has been modified through the addition of another atmospheric layer, resulting in a two layer atmosphere.

Based on the following reading:
Few, A.A., 1996, System Behavior and System Modeling, Sausalito, CA: University Science Books, p. 27-37.

Harte, J., 1988, Consider a Spherical Cow, Sausalito, CA: University Science Books, p. 69-72, p. 160-167.

Surface Temperature	335
Atm Layer 1 temp	303
Atm Layer 2 temp	255
