

Space and Time Scales

Questions

Research on Learning Conference

Wingspread July 2002

1. In your experience as a teacher and learner, what is hard to understand about space and time?
i.e. What are the barriers and obstacles

2. We know of three thinking/learning/communicating strategies
 - narrative
 - analogy
 - representations

What are the powers and pitfalls of each?

3. What research questions do you want to know the answers to?
