  - Aquatic Biological Science Intern, Yosemite National Park
  - Giant Sequoia Monitoring and Demography Intern, Sequoia National Park
  - Science Communication Assistant, Rocky Mountain National Park
  - Bat Research Assistant, Glen Canyon National Recreation Area
  - Wildlife Intern, Joshua Tree National Park
  - Interpretation and Education Intern, Klondike Goldrush Park (Alaska)

(6) A few opportunities that don't necessarily require US Citizenship (various deadlines but many coming up very fast):

- ✓ webpage: <https://pathwaystoscience.org/programs.aspx?adv=adv>  
This is an amazing resource with oodles of internships listed. When you navigate to the page, here are some things that you should select as filters:
  - check the box for community college students
  - if you are picky about location, you can select region or state
  - program's citizenship requirements: select your choice
  - discipline category: you can check off any specific topics that you want, like plant sciences, geology, biology, marine sciences, etc., etc., etc.
  - you can select (if you want) a ton of other characteristics, like start and end date, application deadline, etc.
  
- ✓ webpage: <http://www.matthewrcover.com>, then click on "undocustem" at the top of the page
  
- ✓ webpage: <https://www.cientificolatino.com/stem-summer-undergraduate-research-programs/>  
You can search for specific disciplines (i.e., biology, astronomy, environmental, geology, etc.) Some opportunities for DACA students and international students.
