

GEOL1: ANONYMOUS peer evaluations

Please take some time to evaluate people with whom you've worked so far this term. A couple of notes:

- ✓ **These evaluations are anonymous** (no need to put your name on this; the only person who will see this is me)
- ✓ **These evaluations have nothing to do with how you feel personally**, it's the person's work that matters. Thank you for your honest and thorough evaluations!

Here are what the ratings mean in your peer evaluations:

1: Performance exceeds the standard.

This means that the person's performance is **above and beyond** what is expected. Outstanding performance.

2: Performance meets the standard.

This means that the person's performance is **what is expected**. There are no problems, issues, complaints, areas for improvement, etc. Very good performance.

3: Improvement recommended.

This means that the person's performance is **not as strong as what is expected** and could be better. Performance needs improvement.

4: Performance does not meet the standard.

This means that the person's performance is **not acceptable**. Unsatisfactory performance.

5: Not applicable/no data available.

This means that you **don't have any information**. Not applicable.

1.) Mineral identification exercise

At the beginning of our class meeting on _____, you worked with other people to identify a mineral that I gave you.

With whom did you work? _____

Please check the box that best represents the experience that you had working with him/her/them during this exercise. In making your evaluation, please consider things like,

- ✓ *Was/were he/she/they prepared?*
- ✓ *Did he/she/they contribute to the discussion and the work?*
- ✓ *Did he/she/they listen to you?*
