

Identification Key #1

Identification Key #2

No Legs

Microscopic
Go to Microscopic ID Sheet

Wormlike

With Tentacles, Brushes, or Tails

suckers, expands and contracts

ventral dorsal
Leech

reddish brown

Tubiflex Worm

glides along bottom

Flatworm or Planaria

tan to brown, long

Horsehair Worm

small, hairlike, swims in S shape

Nematode or Threadworm

breathing tube at rear

Mosquito Larva

large head, wriggles

Mosquito Pupa

on surface, stiff, with tail disk

Soldier Fly Larva

long breathing tube

Rat-tailed Maggot Larva

smooth, stiff, small head

Horsefly Larva

red, green, or tan; twists

Midge Larva

white or grey, with tentacles

Cranefly Larva

big "head," active

Midge Pupa

small, black, attaches to rocks

Blackfly Larva

Identification Key #3

No Wings (Wing Pads May Be Present)

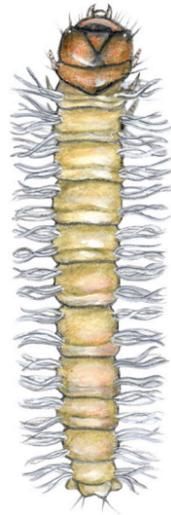

No Obvious Tails

brown, featherlike, usually six legs, C-shaped

Riffle Beetle Larva

six legs and prolegs on abdomen

Pyralid Caterpillar

suction cup-like

Water Penny

large body, hinged mouth

Dragonfly Larva

lives in stone case; green, tan, orange, or white body

Caddisfly Larva

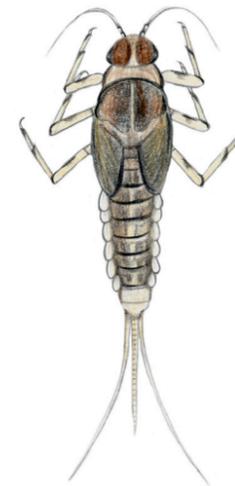

moves slowly; abdomen blunt, round on end; thick jaws

Water Scavenger Beetle Larva

One or Two Tails

long tails, gills on abdomen

Mayfly Larva

Three Tails

plate-like tails, no gills on abdomen

Damselfly Larva

small, "spines" on side

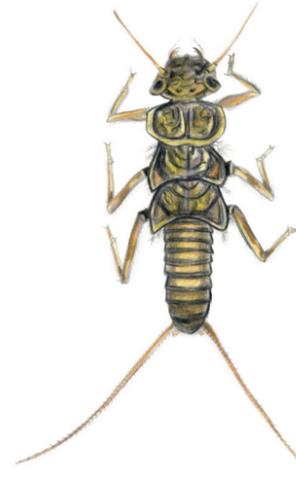

Alderfly Larva

large mouthparts, "spines" on side

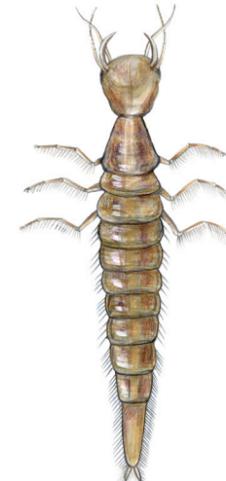

Dobsonfly Larva

tails long and stiff

Stonefly Larva

hangs from surface, large mouth parts

Predaceous Diving Beetle Larva

small, hops on surface

Springtail

Identification Key #4

Wings

Leathery Wings

tan, lives on surface

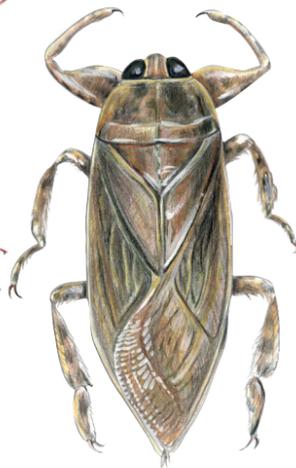

Marsh Treader

dark, lives on surface

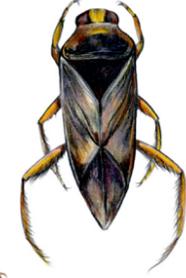

Water Strider

grasping front legs, up to three inches

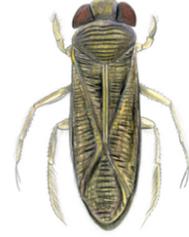

Giant Water Bug

swims on back, back white

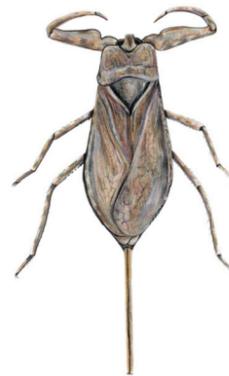

Backswimmer

swims right-side up, black back

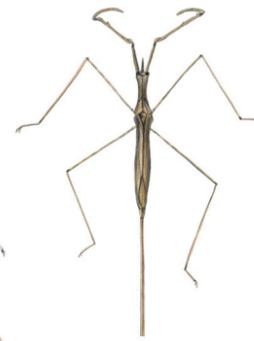

Water Boatman

long breathing tube, grasping front legs

Water Scorpion (*Nepa*)

long, stick-like

Water Scorpion (*Ranatra*)

Paper-like Wings

small, crawls on bottom

Riffle Beetle

swims moving hind legs alternating

Water Scavenger Beetle

back legs move at same time

Predaceous Diving Beetle

Hard Shell Wings

swims on surface

Whirligig Beetle

"crawls" through water, spotted

dorsal

ventral
Crawling Water Beetle

elongate wing extends past abdomen

Alderfly Adult

mothlike; wings tent body

Caddisfly Adult

looks like giant mosquito

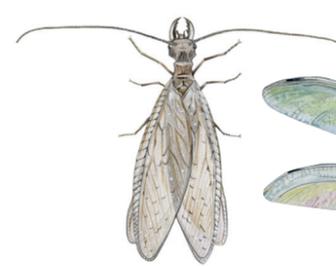

Cranefly Adult

wings extend above body

Damselfly Adult

elongate wing extends past abdomen

Dobsonfly Adult Female

Dobsonfly Adult Male (head)

abdomen long and stout

Dragonfly Adult

three long, thin tails

Mayfly Adult

large feathery antennae

Midge Adult

two thin tails

Stonefly Adult
