

# ChemConnections

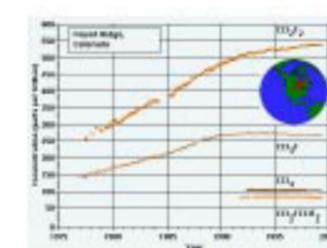

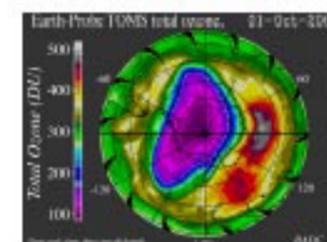

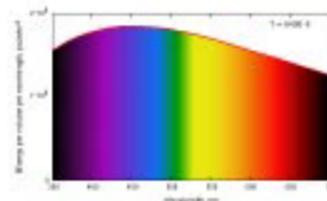

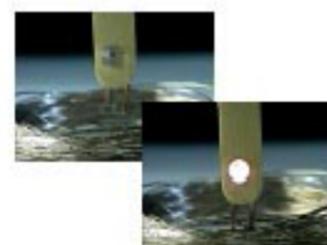

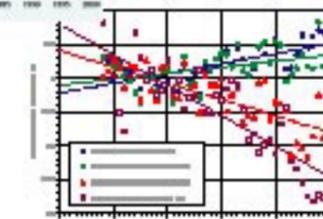

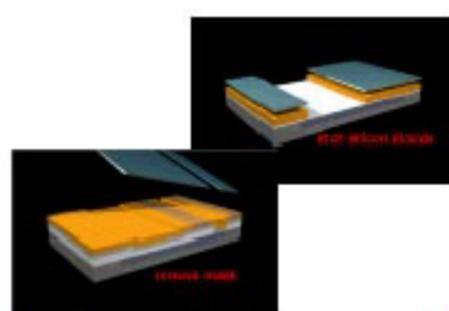

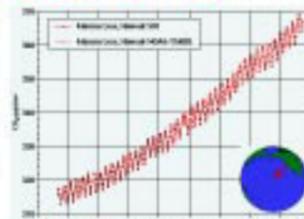

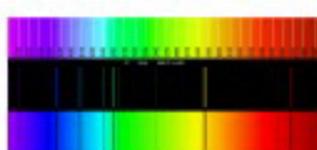

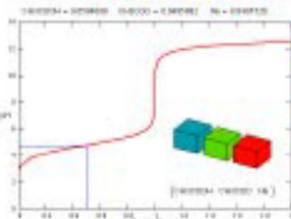

## Systemic Change Initiatives in Chemistry

ChemLinks Coalition  
ModularCHEM Consortium

National Science Foundation  
John Wiley & Sons, Inc.

### Topical modules currently available

❖ What

Should We Do

About Global Warming?

❖ Why Does the Ozone Hole

Form? ❖ Computer Chip

Thermochemistry: How can we

create an integrated circuit from sand?

❖ Earth, Fire, and Air: What is needed to

make an effective air-bag system?

❖ Would You Like Fries With That? The

fuss about fats in our diet. ❖ Should We

Build a Copper Mine? ❖ Water Treatment:

How can we make our water safe to drink?

❖ Build a Better CD Player: How can you

get blue light from a solid? ❖ What's in a

star? ❖ How Do We Get From Bonds

to Bags, Bottles, and Backpacks?

❖ How Could Life Have Arisen on

Earth? ❖ Soil Equilibria:

What happens to acid

r a i n ?

**What chemistry do you need to know to answer these questions?**
